Proposals and References

Proposal 1: Appropriation of Surplus

Concerning the appropriation of surplus, the Company proposes as follows:
Matters concerning the year-end dividends

The Company's basic dividend policy is to distribute profits in a balanced manner, taking into comprehensive consideration a shareholder return that is in line with the Company's consolidated financial results in each fiscal year, as well as enhancement of internal reserves to improve medium-to long-term shareholder value based on a more robust revenue base. The Company will also facilitate acquisition of its treasury stocks as a shareholder return measure to complement dividend payments in a flexible manner.

Internal reserves will be applied to investment in business expansion and reinforcement of highly-profitable business structures, such as R&D for new business development and strengthening of existing businesses, new construction and extension of facilities, and efficiency improvement measures. Through future business development, we will ensure a growing benefit to our shareholders.

During the 3-year 3D-III mid-term plan, which started in FY2017, we will target a dividend payout ratio of 30%, and also flexibly conduct purchases of the Company's own shares.

Based on the policy mentioned above, the year-end dividend for the fiscal year under review will be 16 yen per share.

Proposal 4: Revision of Amount of Director Compensation

With regard to the amount of Director compensation, it was approved at the 148th Annual General Meeting of Shareholders held on June 20, 2014 to be 400 million yen or less per year (including 40 million yen or less per year for External Directors).

The Company, as part of the revision of officers compensation plan, is willing to give the payment of bonuses to the Directors of the Company (excluding External Directors; hereinafter the “Eligible Directors”), based on their achievement etc., in line with performance indexes determined by the Company to further heighten the linkage of compensation for the Eligible Directors with business performance, in order to increase their incentive to contribute to the Company’s performance growth as well as to further align their interests with those of shareholders. In addition, taking into account such factors as increased responsibilities of Directors due to a changing business environment against a backdrop of changes in economic situations, the heightened importance of roles of External Directors to further enhance corporate governance, and other various factors, it is proposed that the amount of Director compensation be revised to be 500 million yen or less per year (including 60 million yen or less per year for External Directors).

Proposal 5: Revision of Amount of Corporate Auditor Compensation

With regard to the amount of Corporate Auditor compensation, it was approved at the 148th Annual General Meeting of Shareholders held on June 20, 2014 to be 100 million yen or less per year. The number of Corporate Auditors will be five (including three External Corporate Auditors), if Proposal 3 is approved as proposed.

With regard to the amount of Director compensation, it was approved at the 148th Annual General Meeting of Shareholders held on June 20, 2014 to be 400 million yen or less per year (including 40 million yen or less per year for External Directors), and it will be 500 million yen or less per year (including 60 million yen or less per year for External Directors) if the Proposal 4 is approved as proposed.

Now, as part of the revision of officers compensation plan, the Company proposes to newly create a compensation plan to grant restricted stock to Directors (excluding External Directors; hereinafter the “Directors Covered by the Plan”), with a separate limit from the above compensation limit, in order to increase their incentive to contribute to the enhancement of corporate value over medium-to-long term as well as to further align their interests with those of shareholders. The outline of the restricted stock is as follows.

The compensation paid to grant restricted stock to the Directors Covered by the Plan (based on this proposal) shall be a monetary claim (hereinafter the “Monetary Compensation Claim”), and its total amount shall be 100 million yen or less per year, the amount deemed to be appropriate based on the above objectives.
