

DAICEL Report 2022 Released

We have released DAICEL Report 2022.

<https://www.daicel.com/en/sustainability/pdf/library/2022e.pdf>

The Daicel Group aspires to realize its Basic Philosophy of becoming “the company making lives better by co-creating value,” and it continues to conduct its businesses with a view to both improving social sustainability and enhancing medium- to long-term corporate value. Aimed at providing our shareholders, investors, and many other stakeholders with a better understanding of the Daicel Group and a tool for communication, this report is a concise consolidation of financial and non-financial information that is highly relevant to our medium- to long-term value creation story.

Also, under the Sustainability section of our corporate website, we disclose comprehensive and detailed information on the Group’s sustainability initiatives.

【Highlights of the Report】

- The chapter titled “Our Goals and Mid-Term Management Strategy” provides an overview and explanations of our long-term vision and mid-term management strategy. In addition, regarding the mid-term management strategy "Accelerate 2025", from the three perspectives of sustainability, Product, Process (manufacturing process) and People (employees), we introduce the specific initiatives of the measures set out in the strategy with the voices of

employees.

- In “Businesses and Growth Strategies,” we have organized the strengths, opportunities and risks (business environment) in each business segment, and introduced our growth strategies in more detail than before.

We appreciate if you could read the report and hope it will be an opportunity to deepen your understanding of Daicel Group.

Going forward, we will continue to strive for improvement in our sustainability initiatives and engage with our stakeholders.
