<sup>\*</sup> Our group's Daicel Miraizu Ltd., was found to have acted improperly in connection with the certification by Underwriters Laboratories Limited Liability Company (hereinafter, UL), a third-party safety science organization in the United States, for some resin products sold by Daicel Miraizu Ltd. We announced it on July 11, 2022, and we established an investigative committee consisting of our independent Outside Audit & Supervisory Board Members and outside experts who have no stakes in our company, and entrusted them with the investigation of such acts. Then, on December 16, 2022, we received from this committee an investigation report with the investigation results including the facts about these acts and their causal analysis, and the results of the verification of the current quality compliance system. The results of the investigation by the committee will be taken seriously by the entire Group, all officers and employees of the Group will once again go back to the basics of "manufacturing" and do their utmost to restore trust and prevent recurrence.
