

Environmental Management Systems

Environmental management systems support our Responsible Care Initiative.

As an important aspect of Responsible Care, Daicel has acquired certification under ISO 14001, a set of international standards for environmental management systems, as an effective and efficient means of promoting environmental conservation.

In addition, Daicel is promoting the spread of environmental management systems throughout other Group companies.

→ Daicel ISO 14001 Acquisition Dates and Certificate Numbers

Plant/Research Center	Acquisition Date	Certificate No.
Ohtake Plant	Aug. 1999	JQA-EM0492
