

Product Description:

Receiving the signal, Puncher activates the arrowhead and instantly destroys the seal on the gas cylinder.

Note:

This specification for **Design Verification only**(Not yet Design Validation).

Operation Time (Reference)

Release start time < 5.0 ms,

- * The case using a specific gas cylinder
- * Gas cylinder : CO2 type (Supplied another supplier)

Temperature Range

0°C/ + 40°C

Screw size (gas cylinder):

5/8 – 18UNF

Initiator Data

Qualified to AK-LV16 & USCAR

| | |
|----------------------|---|
| Initiator resistance | ≥1.7 Ω and ≤2.5 Ω |
| All-fire current | ≥1.75 A / 0.5 msec or ≥1.20 A / 2.0 msec |
| No-fire current | ≤0.4 A/10sec |
| Monitor current: | or ≤5.0 A/4μsec ≤160 mA |

Weight:

38 gr.
